Outcome Indicators

PERFORMANCE INDICATOR 1:

Percentage of policy recommendations adopted

Definition:

- This refers to the proportion of policy recommendations that were adopted by decision-makers – The President, the Cabinet, and the Congress. Policies refer to government decisions, courses of action, and positions on various concerns relating to NEDA's mandate that are issued to respond to specific problems or concerns. Policies can be in the form of official pronouncement or statements, administrative orders, memorandum circulars, board resolutions, implementing rules and regulations, and other related issuances. The term "adopted" refers to acceptance of policy recommendation, as manifested by its inclusion or incorporation in a policy issuance.
- This indicator measures the quality of analyses of development issues and policy alternatives provided to said decision makers.

Means of Verification:

- Analysis of the following documents against policy recommendations provided: proposed laws, enacted laws and their implementing rules and regulations; executive issuances (circular, orders, official pronouncement or statements, board resolutions, memoranda for the President, policy briefs/ notes, and other related issuances)

Monitoring Mechanism:

- Policy recommendations approved by the Secretary
- Computed as = (Total number of policy recommendations adopted by decision makers / Total number of policy recommendations prepared and reviewed) x 100

2020 target: 85.7%; Quarterly target: 85.7%
